

PlanetMark

We are Planet Mark Certified

This is to certify that the whole life carbon footprint of Royal Docks West has been measured and reduced. Unavoidable embodied carbon emissions have been compensated for by protecting endangered rainforest.

Certification achieved in: November 2020

Empowering change for a brighter future.

The Planet Mark is a sustainability certification for every type of organisation, for products and for real estate. Our certification recognises continuous improvement, encourages action and builds an empowered community of like-minded individuals who make a world of difference.

Measure

Certified: Royal Docks West

Carbon life cycle assessment of embodied and projected in-use carbon:

11,404 tCO₂e
Total carbon footprint.

8,603 tCO₂e
Total embodied carbon.

2,801 tCO₂e
Total operational carbon.

Carbon reduction compared to a business as usual baseline:

6,469 tCO₂e -36.19%
Total carbon saved:

2,348 tCO₂e -21.44%
Embodied carbon saved.

4,121 tCO₂e -49.53%
Operational carbon saved.

We are committed to reducing our carbon emissions yearly so that together, we can all halt climate change.

Engage

Engagement of local and global communities in sustainability:

- 1 local primary school to receive certification to The Planet Mark and a sustainability workshop from Eden Project.

Communicate

Through communication of sustainability initiatives and performance at Royal Docks West, awareness of environmental and social impacts has been raised.
